

Onyx is in the unique position of catering for the Plastics and Rubber industry via Jim Schutte while at the same time, Patrick Schutte from the computer division is able to supply, service and support all your computer hardware and software requirements.

This Father & Sons business, was established in 1989 and has been going from strength to strength, large enough to cater for your requirements, but small enough to give you their personal touch.

Jim Schutte(also referred to as Pop), has the sole South African agency for:

- [Tyre Recycling Manufacturing \(Pty\) Ltd.](#) Turnkey Tire Recycling systems.
- **HMG Extrusions**, Plastic manufacturing equipment.
- [Rubicon](#) , Rubber manufacturing and testing equipment.
- [esde](#) , Multi-foil (up to 5 foils) manufacturing equipment.
- [Mecanor Engineering](#) , Pipe socketing/belling machines.
- [Gneuss](#) , Filtration, processing, and measurement technology.

Jim has been actively involved in the plastic machinery industry since the sixties. Jim's interests in computers and electronics ensured that he also became a key player in Onyx Computer Systems as well.

Michael Schutte, has now immigrated to New Zealand, and we wish him the all the best for the future.

Patrick Schutte, our software fundi, is a member of [Mensa](#) and the author of [TimeDesign](#) , an excellent school timetabling program. He can cater for your software requirements, from all the flavours of Windows, not to mention Linux and SCO Unix.
